Question:

1. Which phone number do I have to use mainly for compare among AJ, AD, AL from Google docs?
2. Can I consider Anjel A. Mari is same name with Anjel Mari?
3. For Address can I ignore zip code

## Firm/Contacts Info

## Firm & Contact Information

### Notes:

- Google Sheet tab “Firms/Contacts” is for matching to the appearance page on the Text Doc
  - Final data is not ready yet. The “Firm/Contacts (Example)” tab can be used to compare examples 1-9.
- Firm name AND contact name need to match (on the same row). Some contacts will be listed with more than one firm.
  - If firm name and contact name have multiple rows that match, use the row that also has the matching address
- Phone numbers on Text Doc Appearance Page can match any phone number from RB that in the same row (columns F, G, O, P or Q)
  - Format can vary. These are the most common formats:
    - 123.456.7890
    - (123) 456-7890
    - 123-456-7890
- If a firm has 2 addresses (RB data in columns B-E *and* I-L, Text Doc can match either one
- Fax/facsimile is not required on the Text Doc. If it is included, please check that it matches
- If column AN (other tasks) on RB pull sheet contains “Videographer” or “Interpreter”, it should be listed on the 2nd page of the Text Doc under “Also present”
  - Example: (job #119698)

---

### Firms

- Firm names
  - Text Doc does not need to include the text after “-”
    - Example:

| Firm                                                           |
|----------------------------------------------------------------|
| Drew Eckl & Farnham, LLP                                       |
| Law Offices of Gary Martin Hays & Associates, P.C. -<br>Duluth |

- Text Doc should not include any symbols in RB data

■ Examples:

| Firm                        |
|-----------------------------|
| Meyerson Law, LLC           |
| Georgia Probate Law Group + |

  

| Firm                                         |
|----------------------------------------------|
| Lamar Law Office, LLC                        |
| Morgan & Morgan - Savannah                   |
| Law Office of Marcus A. Blackwell - Atlanta+ |

- Automation should flag any firms that have “NPA” before the firm name

■ Example:

| Firm                                   |
|----------------------------------------|
| Nall & Miller, LLP                     |
| Nimmons Malchow Johnson Injury Lawyers |
| NPA - Cite, LLC                        |
| NPA - Neal R. Gross & Co., Inc.        |
| Powell & Associates                    |

- If the Text Doc uses the “Firm a/k/a” instead of the “Firm” name, the automation should notify the user and prompt the user to confirm whether it should be left as is or corrected to the Firm name

■ Example:

| Firm                         | Firm a/k/a                 |
|------------------------------|----------------------------|
| Schwartz, Moore & Strickland | Strickland & Schwartz, LLC |

- Firm Addresses
  - Zip code: only first 5 numbers need to match the Text Doc
    - Example:

Firm Zip

30214

30904

30901

30308 3263

---

## Contacts

- Contact Names
  - If multiple contacts are listed on the Text Doc under the same firm, only one needs to match RB data
    - Example:

```

3  On Behalf of the Claimant:
4  BILL WILDMAN, Esquire
5  CLAIRE SCAVONE, Esquire
6  Eversheds Sutherland, LLP
7  999 Peachtree Street, Northeast, Suite 2300
8  Atlanta, Georgia 30309
   (404) 853-8000
   billwildman@eversheds-sutherland.com
   clairescavone@eversheds-sutherland.com

```

- Middle name/middle initial is not required on Text Doc
- Contact email
  - If contact has multiple email addresses, only one needs to be present on Text Doc
    - Example:

## Contact Email
